

Title: Business Development Intern
Location: Boston, MA
Employment Type: Full Time
Qualification: Postgraduate or above
Experience: Manager
Start date: January 1, 2012

Cambrian Innovation is looking for a Business Intern to join our growing team. The ideal candidate will have a highly successful academic record, experience in market research and competitive analysis, a high attention to detail and capability to undertake independent research tasks. An interest in next-generation renewable energy technology and entrepreneurship is a must!

Responsibilities:

- Provide market research and competitive analysis
- Outline potential partners and industry relationships to leverage business opportunities
- Assist with development of marketing and branding materials
- Strong quantitative, analytical and problem solving skills with the ability to think strategically
- Self motivated to work independently as well as in a team environment
- Use advanced Microsoft Excel and PowerPoint skills to develop materials, accumulate and synthesize data

Education and Experience Level: MBA or Undergraduate Business Degree with a few years of business experience.

Eligible candidates please submit a resume and cover letter to Karla Franco, Operations Manager at kfranco@ambrianinnovation.com.

Company Description: Cambrian Innovation™ is an environmental product development company focused on moving revolutionary scientific discoveries from bench to market. As a world leader in the commercialization of bio-electrochemical systems, our technological platform has application to a range of industries including wastewater treatment, renewable natural gas, distributed sensing, and aerospace.

Cambrian is building an innovative product platform with a network of collaborators in industry, academia, and government. We also provide market and technical feasibility analysis for corporate and government clients interested in quickly determining the validity of novel technologies.
