

Title: Lab Technician
Location: Boston, MA
Employment Type: Full Time
Qualification: Postgraduate or above
Experience: Manager
Start date: January 1, 2012

Cambrian Innovation is looking for a Lab Technician to join our growing team. The ideal candidate will have a highly successful academic record, experience in the laboratory, a high attention to detail and capability to undertake independent research tasks. An interest in next-generation renewable energy technology, environmental entrepreneurship, and experience with bio-electrochemical systems is also positive.

Education and Experience Level: Bachelors with some laboratory experience or Masters Degree.

- Bio-Electrochemical Systems Laboratory Experience desired.
- Prototyping and Hardware Development Experience
- Laboratory techniques

Eligible candidates please submit a resume and cover letter to Karla Franco, Operations Manager at Kfranco@cambrianinnovation.com.

Company Description: Cambrian Innovation™ is an environmental product development company focused on moving revolutionary scientific discoveries from bench to market. As a world leader in the commercialization of bio-electrochemical systems, our technological platform has application to a range of industries including wastewater treatment, renewable natural gas, distributed sensing, and aerospace.

Cambrian is building an innovative product platform with a network of collaborators in industry, academia, and government. We also provide market and technical feasibility analysis for corporate and government clients interested in quickly determining the validity of novel technologies.
